- Docker
- Linux/devops
- Nginx
- Github actions

## EXPERIENCES

- Startup
- SCRUM

## LANGUAGES

Swedish  
English

## ABOUT ME

Exploration and building with code has been an interest of mine since my first self-taught experiments with Assembler and then moving on to Pascal and then landing in web development. I have T-shaped knowledge ( broad and depth/specialization ) and I am used to working in multiple levels in development.

## WORK EXPERIENCE

- 2024**  
**2023**  
**Full-stack web developer**  
**Clira AB**  
Working in a SCRUM-environment with daily standups in 3 week sprints, I worked in the team to further develop the company procurement system with new integrations, improvements and solving support issues. Skills: React, Tanstack Query, Typescript, NextJS, Ant Design, PHP, Laravel
- 2023**  
**2022**  
**Full-stack web developer**  
**LearningPlay AB**  
Managing multiple Wordpress-sites and customizing WooCommerce to integrate with LearnDash and other solutions running on the sites. Created a simple Marketing-CRM using NextJS + React + Tailwind CSS, persistent storage with serverless Postgresql and using the API for the e-mail platform Brevo to create lists with recipients.
- 2022**  
**2016**  
**Full-stack web developer and devops**  
**Web IT Solutions AB**  
Frontend and backend web development with existing applications, building new applications with Laravel, administration and configuration of Linux web-servers (Nginx, MySQL, PHP) and SSL certifications. Node.JS development as a microservice.
- 2016**  
**2013**  
**Full-stack web developer**  
**Media och Webbsupport**
- 2013**  
**2011**  
**Full-stack web developer**  
**Softscreen Scandinavia AB**

## EDUCATION

- 2011**  
**2008**  
**Bachelor, Web development**  
**Linnaeus University**  
HTML, CSS, Basic and Advanced courses with PHP, Javascript, C#.NET, Databases and MySQL, Internet and networking, Projects using SCRUM
